

Health & Safety Services

Don't let our name fool you! Zephyr Environmental Corporation offers a wide array of expert health and safety (H&S) consulting and training services to help our clients design and implement their site-specific programs.

From written programs to workplace assessments to staffing on-site assistance, Zephyr employs Certified Safety Professionals who are well qualified to offer expertise and assistance in the following areas:

CONSULTING

- Compliance Support
 - H&S program development and implementation
 - Building, fire, and life safety code compliance assistance
 - Auditing and inspecting (OSHA; Building, Fire, and Life Safety)
 - Permit applications (HazMat Storage) and reports (OSHA 300, DHS Top Screen)
 - Regulatory reviews, interpretations of applicability, and agency negotiations
 - Management system development and implementation (OHSAS 18001, OSHA Voluntary Protection Program)
 - On-site assistance (supplemental staff or special projects)
- Technical and Engineering Support
 - Workplace exposure assessments and surveys (IH monitoring), including noise surveys
 - Indoor air quality (IAQ) assessments
 - Toxicological reviews and assessments of materials or prototype products
 - Incident and accident investigations, including root cause analysis
 - Process Safety Management (PSM) and process risk assessments (FMEA and HazOp)
 - Radiation and Laser Safety Program Support

TRAINING

- Job, site, company, and industry-specific training programs development
- Safety training delivery, either at our Austin, Texas training facility or on-site for:
 - Back/Lifting and Office Ergonomics Safety
 - Blood Borne Pathogens
 - Confined Space Entry and Retrieval
 - CPR/First Aid/AED
 - Fire Extinguisher Safety
 - Hazard Communication
 - Hazardous Energy Control
 - HAZWOPER/Emergency Response
 - Laboratory Safety
 - Laser and Radiation Safety
 - Personal Protective Equipment
 - Respiratory Protection/Fit Testing

Zephyr also provides environmental, emergency response, and DOT training services. A list of training courses and registration information is available at <http://www.hazmatacademy.com/>.

DATA SYSTEMS

We also offer client-specific data management systems that assist with maintaining compliance and safety performance tracking.

Assisting clients worldwide with their EHS consulting, training, and data systems needs.
