

Zephyr Environmental Corporation's Specialized Institute for Training

EMERGENCY RESPONSE • DOT • ENVIRONMENTAL • HEALTH & SAFETY

Effective training programs that positively impact job or plant performance, contribute to safe and healthy work practices and environments, and comply with regulatory requirements are an investment worth making. Zephyr can evaluate your training needs, develop customized training materials, and professionally instruct employees using proven training methods and techniques.

We offer instructors with strong technical backgrounds and practical experience who are also dynamic, informative, and focused on the needs of our students. During the past 20 years, Zephyr's HazMat Academy has provided emergency response, Department of Transportation (DOT) Hazardous Material Employee; and other environmental, and health & safety training to over 15,000 students. Our clients include Fortune 500 companies, small businesses, federal government agencies, municipalities, hospitals, universities, and public emergency response personnel.

We offer pre-scheduled "open" enrollment classes as well as custom, on-site training courses to clients around the world. We invite you to visit our website at www.hazmatacademy.com to learn more.

Numerous courses are scheduled throughout the calendar year and are offered at our Austin, Texas and Houston, Texas offices. Course types include:
